

MONO

Meaning: 'Mono' refers to a style or technique that involves a single channel or image, often used in art or audio to emphasize simplicity and singularity.

1. The artist's latest exhibition features a series of mono prints that capture the essence of solitude.
2. In audio engineering, mono sound focuses on a single channel, providing a different listening experience compared to stereo.
3. The chef decided to create a mono dish using only one primary ingredient to highlight its natural flavors.
4. During the presentation, she used a mono color palette to create a striking visual impact.
5. The film was shot in mono to evoke a sense of nostalgia and simplicity reminiscent of classic cinema.
