

# MONOGYNY

*Meaning: Monogyny is a marital practice in which a man has only one wife at a time.*

1. Monogyny, often practiced in certain cultures, emphasizes the importance of a single marital relationship for men.
2. The study of monogyny reveals interesting patterns in family dynamics across different societies.
3. In anthropological research, monogyny is often contrasted with polygyny to understand gender roles.
4. Monogyny can influence inheritance practices and social status within communities.
5. Debates around monogyny and its implications for gender equality continue to shape modern discourse.
