

MONOLITHIC

Meaning: Monolithic refers to something that is large, powerful, and composed of a single, unified piece or structure, often conveying a sense of solidity and permanence.

1. The artist's monolithic sculpture towered over the landscape, casting a dramatic shadow at sunset.
2. Many ancient civilizations built monolithic structures that still stand as a testament to their engineering prowess.
3. In the tech industry, a monolithic application can be harder to maintain than a modular one due to its complex interdependencies.
4. The monolithic nature of the mountain range made it a challenging climb for even the most experienced hikers.
5. Critics argue that the company's monolithic approach to management stifles creativity and innovation among its employees.
