

MONOPOLIST

Meaning: A monopolist is an individual or entity that exclusively controls a market or industry, allowing them to set prices and limit competition.

1. The monopolist set the prices so high that consumers had no choice but to pay.
2. Many critics argue that the monopolist stifles innovation by eliminating competition.
3. In a free market, a monopolist can often dictate the terms of trade and service.
4. The government's regulations aimed to prevent the monopolist from abusing its market power.
5. As a monopolist, the company faced scrutiny from antitrust authorities for its business practices.
