

MOONSAIL

Meaning: Moonsail: a type of sail used on a yacht, designed to catch the wind and enhance sailing performance, often associated with nighttime sailing under moonlight.

1. The graceful moonsail filled with wind as the yacht glided across the shimmering sea.
2. Under the bright moonlight, the crew adjusted the moonsail to catch the gentle breeze.
3. Sailing enthusiasts often admire the elegance of a well-set moonsail on a tranquil night.
4. With the moonsail unfurled, the boat became a stunning silhouette against the glowing horizon.
5. As the sun set, the moonsail caught the last rays of light, creating a breathtaking spectacle.
