

MUNICIPALISM

Meaning: Municipalism is a political philosophy that emphasizes local governance and community participation in decision-making to address urban challenges.

1. Municipalism advocates for local governance and community engagement in decision-making processes.
2. The rise of municipalism has led to innovative approaches to urban challenges, emphasizing local solutions.
3. Many cities are exploring municipalism as a way to enhance democratic participation and social equity.
4. Critics argue that municipalism may struggle to address issues that transcend local boundaries, such as climate change.
5. In recent years, municipalism has gained traction as a counter-movement to centralized political power and global capitalism.
