

# MUNTJAC

*Meaning: Muntjac: a small species of deer native to Southeast Asia, characterized by its distinctive vocalizations and often found in forested habitats.*

1. The muntjac is a small deer known for its distinctive bark-like call.
2. In the dense forests of Southeast Asia, the muntjac can often be spotted grazing quietly.
3. Due to its elusive nature, seeing a muntjac in the wild can be a rare and exciting experience.
4. Muntjacs are often referred to as barking deer because of the sounds they make when alarmed.
5. Conservationists are concerned about the habitat loss affecting the muntjac population in certain regions.
