

NEOCRACY

Meaning: Neocracy is a system of governance that emphasizes leadership based on merit and expertise rather than traditional hierarchies or political connections.

1. The concept of neocracy challenges traditional forms of governance by prioritizing merit and expertise over established hierarchies.
2. In a neocracy, leadership is often based on innovation and adaptability rather than political connections or seniority.
3. Some theorists argue that neocracy could lead to more efficient decision-making processes in complex societies.
4. The rise of neocracy has sparked debates about the role of experience versus fresh perspectives in political leadership.
5. Critics of neocracy warn that it may inadvertently exclude those who lack formal qualifications despite possessing valuable insights.
