

NIGHTJAR

Meaning: A nightjar is a nocturnal bird known for its distinctive, haunting call and camouflaged plumage, often found in wooded or open areas.

1. The nightjar sang its haunting call as darkness enveloped the forest.
2. During summer, the elusive nightjar can often be heard in the tranquil countryside.
3. With its camouflaged plumage, the nightjar blends seamlessly into the leaf litter.
4. Birdwatchers often seek the nightjar for its unique vocalizations and secretive behavior.
5. As the sun set, the nightjar began its nightly chorus, filling the air with mysterious sounds.
