

NONRECURRING

Meaning: Nonrecurring refers to an expense or charge that is not expected to happen again in the future, typically impacting financial results only in the period it occurs.

1. The company reported a nonrecurring expense that significantly impacted their quarterly profits.
2. Investors were pleased to see that the large charge was nonrecurring and would not affect future earnings.
3. During the financial briefing, the CEO emphasized the importance of distinguishing nonrecurring items from ongoing costs.
4. Analysts noted that the nonrecurring gains from asset sales improved the overall financial outlook for the year.
5. The nonrecurring nature of the donation meant it would not be part of the regular funding budget.
