

NOTIONALLY

Meaning: Notionally refers to something that exists in theory or as an idea, rather than in reality or practice.

1. The concept of a fair market is notionally appealing, yet difficult to achieve in practice.
2. Notionally, the project aims to improve community engagement, although its implementation remains unclear.
3. He is notionally responsible for the team's success, but the credit is often shared among many contributors.
4. The theory is notionally sound, but it lacks empirical support from recent studies.
5. Notionally, the role of a leader is to inspire, but the reality often involves making tough decisions.
