

# OBJECTIFY

*Meaning: To objectify means to treat or regard someone as an object or a mere representation, rather than as a complex individual with thoughts and feelings.*

1. Using stereotypes can often lead people to objectify others instead of seeing them as individuals.
2. Many artists strive to challenge the societal norms that tend to objectify women in media.
3. It's crucial to educate young people about the dangers of objectifying individuals based on appearance.
4. When we objectify someone, we strip away their humanity and reduce them to mere objects of desire.
5. In discussions about relationships, it's important to emphasize mutual respect rather than objectifying one another.
