

OSSUARIUM

Meaning: Ossuary: a receptacle or structure for storing the bones of the deceased, often used in archaeological and historical contexts to honor ancestors and understand burial practices.

1. The ancient ossuary was a solemn reminder of the community's history and respect for their ancestors.
2. Archaeologists discovered an ossuary filled with bones that provided insights into burial practices of the time.
3. Visitors to the museum were captivated by the intricate carvings that adorned the ossuary, each telling a story of those interred within.
4. In the dim light of the chapel, the ossuary stood as a haunting testament to the passage of life and death.
5. Local legends spoke of spirits lingering around the ossuary, guarding the memories of those who had come before.
