

OVERGROW

Meaning: Overgrow: to grow excessively or uncontrollably, often leading to a dense or tangled mass of vegetation.

1. The garden began to overgrow after weeks without rain, turning into a wild jungle of plants.
2. If left unchecked, the weeds can easily overgrow the flower beds, suffocating the blooms.
3. The abandoned lot was soon overgrown with tall grass and tangled vines.
4. As the years went by, the once-manicured hedges started to overgrow and lose their shape.
5. Invasive species can overgrow native plants, disrupting the local ecosystem.
6. The garden became a wild jungle after the plants began to overgrow unchecked.
7. If left unattended, the weeds can easily overgrow and choke the more delicate flowers.
8. The forest had started to overgrow, hiding the once-visible paths from hikers.
9. In the absence of regular maintenance, the backyard would often overgrow with grass and bushes.
10. As the seasons changed, the vines would overgrow the old fence, creating a lush green curtain.
