

# OVERGROWTH

*Meaning: Overgrowth refers to an excessive or uncontrolled growth of plants or vegetation, often obstructing paths or spaces.*

1. The garden was a beautiful mess, with overgrowth consuming the once neat pathways.
2. As we hiked deeper into the forest, we encountered thick overgrowth that made it difficult to progress.
3. The abandoned lot became a haven for wildlife, transformed by the relentless overgrowth of weeds and vines.
4. Local authorities are concerned about the overgrowth of invasive species that threaten native plants.
5. After months of neglect, the backyard was filled with overgrowth that hid the patio and flower beds beneath tangled greenery.
