

# PAGOD

*Meaning: Pagod: a tiered tower or structure, often part of a temple complex, typically found in East Asian architecture, characterized by its ornate design and multiple eaves.*

1. The ancient pagod stood majestically against the backdrop of the setting sun.
2. Tourists marveled at the intricate carvings that adorned the pagod's walls.
3. During the festival, the local community gathered at the pagod to celebrate their heritage.
4. The serene atmosphere around the pagod provided a perfect escape from the city's hustle.
5. Visitors were captivated by the golden spire that crowned the towering pagod.
