

PAPALIST

Meaning: Papalist: a supporter of the authority of the Pope and traditional Catholic doctrines within the Church.

1. The papalist faction within the church has been advocating for a return to traditional doctrines.
2. Despite the controversies surrounding the papalist ideology, many continue to support its principles.
3. Historically, the papalist view held significant influence during the Counter-Reformation period.
4. The debate between papalists and those favoring a more decentralized church structure has shaped religious discourse for centuries.
5. In modern discussions, some theologians still identify with papalist beliefs, emphasizing the authority of the Pope.
