

PARAPHRASER

Meaning: A paraphraser is a person or tool that rephrases text to express the same ideas in different words, often to enhance clarity or avoid plagiarism.

1. A good paraphraser can help clarify complex ideas in simpler terms.
2. Students often rely on a paraphraser to avoid plagiarism in their essays.
3. Using a paraphraser can enhance your writing by providing alternative expressions.
4. The software features a built-in paraphraser that rewords sentences effectively.
5. In academic writing, a skilled paraphraser improves the originality of a student's work.
