

# PARTICIPLE

*Meaning: A participle is a verb form that can function as an adjective and may also indicate tense, such as the past or present form.*

1. A participle can function as an adjective in a sentence.
2. The past participle of "to run" is "run."
3. Using a participle correctly can enhance the clarity of your writing.
4. Many verbs can be transformed into participles by adding specific endings.
5. In English, participles are often used to form perfect tenses.
