

PARTICULARIST

Meaning: A particularist is someone who prioritizes specific instances or individual cases over general principles or universal rules, especially in fields like philosophy or ethics.

1. The philosopher was known as a particularist, focusing on individual cases rather than universal principles.
2. In the debate on ethics, she argued from a particularist perspective, emphasizing the importance of context.
3. Particularists often challenge the idea that moral rules can apply universally to all situations.
4. His approach as a particularist allowed him to appreciate the nuances of each unique case.
5. The particularist viewpoint highlights the complexity of human experiences, resisting one-size-fits-all solutions.
