

PATCHINGLY

Meaning: 'PATCHINGLY' refers to a manner of expression or creation that is spontaneous and fragmented, combining various elements or memories in a way that conveys a sense of both coherence and disjointedness.

1. The artist's approach to creating the mural felt patchingly spontaneous, as if each stroke had its own story.
2. He spoke patchingly about his childhood, weaving together memories that felt both joyful and painful.
3. In her patchingly detailed description of the event, she managed to capture every nuance of the atmosphere.
4. The software update was patchingly effective, fixing minor bugs without causing any additional issues.
5. With patchingly careful movements, the surgeon navigated the delicate procedure to ensure the best outcome.
