

PAWPAW

Meaning: Pawpaw refers to a North American tree (Asimina triloba) that produces large, edible fruit with a creamy texture and sweet flavor.

1. The pawpaw tree thrives in the warm, humid climate of the southeastern United States.
2. Children in the garden delightedly picked ripe pawpaws, eager to taste their sweet, custardy flesh.
3. Many people are unaware that pawpaws are the largest edible fruit native to North America.
4. After a long hike, we sat down under a pawpaw tree and enjoyed the shade it provided.
5. The chef incorporated pawpaw into his dessert, adding a unique twist to the traditional recipe.
