

PEPPERCORN

Meaning: Peppercorn refers to the dried fruit of the pepper plant, typically used whole or ground as a spice to add flavor to food.

1. The chef sprinkled freshly ground peppercorn over the steak to enhance its flavor.
2. In traditional cuisine, whole peppercorns are often used to infuse brines and marinades.
3. The vibrant colors of pink, black, and white peppercorns made the dish visually appealing.
4. She carefully crushed the peppercorns in a mortar and pestle to release their aromatic oils.
5. Peppercorns are not just for seasoning; they can also be used to make a unique homemade oil.
