

PERINEOPLASTY

Meaning: Perineoplasty is a surgical procedure aimed at repairing or reconstructing the perineum, often performed to address damage from childbirth or alleviate chronic pain.

1. Perineoplasty is often performed to repair vaginal and perineal damage after childbirth.
2. Surgeons may recommend perineoplasty for patients experiencing chronic perineal pain or discomfort.
3. The perineoplasty procedure aims to enhance both functional and aesthetic aspects of the perineal region.
4. Recovery from perineoplasty typically involves specific care instructions to ensure proper healing.
5. Many women report a significant improvement in quality of life following a successful perineoplasty.
