

PERSONIFICATION

Meaning: Personification is a literary device that attributes human characteristics or qualities to animals, inanimate objects, or abstract concepts.

1. Personification allows writers to give human qualities to animals and inanimate objects, making their stories more relatable.
2. In the poem, the storm was described with personification as a furious beast roaring across the landscape.
3. The use of personification in her painting brought the flowers to life, making them seem as if they were dancing in the breeze.
4. Children often respond well to personification, as it helps them connect with stories on an emotional level.
5. By using personification, the author transformed the lonely old tree into a wise guardian of the forest.
