

PHENOLOGICALLY

Meaning: Phenologically refers to the study or observation of the timing of biological events in relation to environmental changes, particularly in the context of seasonal cycles.

1. Phenologically, the arrival of migratory birds can indicate changes in climate patterns.
2. The researchers studied how flowering times are phenologically synchronized with temperature changes.
3. Phenologically speaking, the life cycle of the plant is closely tied to seasonal variations.
4. Understanding how species evolve phenologically can help predict their responses to environmental stressors.
5. The conference focused on how phenologically driven shifts affect agricultural practices worldwide.
