

PHENOMENALISM

Meaning: Phenomenalism is the philosophical theory that physical objects do not exist independently of our sensory perceptions of them.

1. Phenomenalism posits that physical objects only exist as sensory phenomena.
2. The debate surrounding phenomenalism raises questions about the nature of reality.
3. Many philosophers have critiqued phenomenalism for its implications on objective truth.
4. Phenomenalism challenges the idea that our perceptions are a direct reflection of the external world.
5. In understanding phenomenalism, one must consider the relationship between perception and existence.
