

PLATINIC

Meaning: Platonic refers to a relationship or concept that is idealized and characterized by deep emotional or intellectual connection without physical or romantic involvement, often associated with the philosophical ideas of Plato.

1. The platonic ideal of friendship emphasizes deep emotional connection over physical attraction.
2. In her art class, she explored the concept of platonic forms, striving to capture their essence in her paintings.
3. Their relationship remained platonic, built on mutual respect and intellectual stimulation rather than romantic feelings.
4. The philosopher's writings often reflect on the nature of platonic love and its significance in human relationships.
5. He argued that the platonic perspective on beauty transcends mere aesthetics and reaches into the realm of the divine.
