

# PLATONISM

*Meaning: Platonism is a philosophical doctrine asserting that abstract objects, such as forms or ideas, represent the most fundamental reality, with the physical world being a mere reflection of these ideals.*

1. Platonism suggests that the physical world is merely a shadow of a more profound, abstract reality.
2. Many philosophers have debated the implications of Platonism on the nature of knowledge and existence.
3. In a Platonist framework, ideals such as beauty and justice are considered to exist independently of human perception.
4. The influence of Platonism can be seen in various fields, including mathematics, ethics, and metaphysics.
5. Critics of Platonism often argue that it overlooks the importance of empirical evidence and sensory experience.
