

PLEBIFICATION

Meaning: Plebification refers to the process of making something more common or accessible, often resulting in a perceived decline in quality or sophistication.

1. The plebification of popular culture has led to a decline in artistic standards.
2. Many critics argue that the plebification of literature undermines the depth of storytelling.
3. In a world increasingly driven by social media, plebification seems inevitable in many spheres of public life.
4. The plebification process can often dilute the richness of diverse ideas and perspectives.
5. Some believe that the rise of reality television is a clear example of plebification in entertainment.
