

POLITIZE

Meaning: To politicize means to make an issue or topic politically relevant or to engage the public in political discourse about it.

1. The organization's goal was to politicize the environmental debate to attract more public attention.
2. In an effort to politicize the issue, the activists organized a series of rallies and discussions.
3. Politicizing the topic may lead to greater division among community members rather than fostering understanding.
4. The news coverage seemed to politicize the event, framing it more as a political struggle than a humanitarian crisis.
5. She was concerned that politicizing personal experiences could undermine the real issues at stake.
