

PORCUPINE

Meaning: A porcupine is a large, spiny rodent known for its defensive quills and herbivorous diet, typically found in forests.

1. The porcupine raised its quills defensively when it sensed danger nearby.
2. In the quiet forest, the porcupine foraged for bark and roots to eat.
3. Children at the zoo were fascinated to learn that porcupines can climb trees.
4. After a long night of roaming, the porcupine found a cozy spot to rest during the day.
5. Despite its prickly exterior, the porcupine is a gentle creature that prefers solitude.
