

POSTPOSITIONAL

Meaning: Postpositional refers to a grammatical structure in which a word or phrase, typically a postposition, follows its complement, often indicating relationships similar to those expressed by prepositions in other languages.

1. In some languages, postpositional phrases can convey meanings that prepositions do in English.
2. The use of postpositional elements is a distinctive feature of certain grammatical structures.
3. Understanding postpositional constructions can greatly enhance a student's grasp of syntax.
4. In languages such as Turkish, verbs often follow postpositional markers to indicate relationships.
5. Her research focused on how postpositional languages differ from those that primarily use prepositions.
