

POULT

Meaning: A poult is a young domesticated turkey, typically raised for meat production.

1. A poult is often raised in a farm setting to provide a sustainable source of meat.
2. During the spring, many farmers start incubating poult eggs in hopes of a successful hatch.
3. The young poult followed closely behind its mother, learning how to forage for food.
4. Breeders carefully select the best traits in poults to enhance the quality of their flock.
5. Watching the poult grow into a mature turkey is a rewarding experience for many poultry enthusiasts.
