

PRASEOLITE

Meaning: Praseolite is a green variety of quartz, also known as green amethyst, that is often used in jewelry.

1. Praseolite is often mistaken for peridot due to its similar green hue.
2. Many jewelry designers favor praseolite for its unique color and affordability.
3. The stunning transparency of praseolite makes it a popular choice for statement rings.
4. Praseolite is believed to enhance emotional balance and promote harmony.
5. While praseolite is less common than amethyst, it has gained popularity in recent years.
