

PREJUDICATION

Meaning: Prejudication refers to a preconceived judgment or bias that can influence decision-making or opinions before all relevant information is considered.

1. The judge emphasized the importance of avoiding prejudication in his ruling to ensure a fair trial.
2. Her prejudication about the new policy led her to resist any discussion about its potential benefits.
3. The committee's prejudication created a biased atmosphere that hindered open dialogue among the members.
4. His prejudication against the candidate clouded his judgment during the selection process.
5. To achieve justice, it is essential to set aside any prejudication that may influence the decision-making.
