

PREMPTION

Meaning: Preemption is the act of taking action to prevent an anticipated event, particularly in legal contexts where a higher authority overrides lower regulations, or in military strategy where it involves striking first to thwart a potential threat.

1. The concept of preemption is crucial in understanding how federal laws can override state regulations.
2. In military strategy, preemption often involves striking first to prevent an imminent attack from the enemy.
3. The court ruled that the new environmental regulations were a preemption of the existing local laws.
4. His preemption of the conversation left others feeling uninvited and overlooked.
5. The government pursued a policy of preemption to deter potential threats before they could materialize.
