

PREORDINATION

Meaning: Preordination is the doctrine that God has eternally determined the fate of individuals, influencing concepts of free will and destiny.

1. The concept of preordination challenges many people's understanding of free will and destiny.
2. In theological debates, preordination often refers to the belief that God has predetermined the fate of every soul.
3. Many philosophers argue that the idea of preordination undermines the value of human choice and responsibility.
4. Preordination can be a comforting notion for those who seek assurance in the face of uncertainty.
5. The tension between preordination and human agency is a recurring theme in religious and philosophical discussions.
