

PREYFUL

Meaning: Preyful: possessing characteristics or instincts that make one vulnerable to being hunted or attacked by predators.

1. The gazelle moved gracefully across the savannah, its preyful instincts keeping it alert for any lurking predators.
2. In the depths of the forest, the rabbit's preyful demeanor made it a target for the hungry hawk circling above.
3. As the sun set, the joyful chirps of crickets filled the air, a reminder of the preyful dance of life and survival in nature.
4. The young fawn, with its innocent eyes and preyful posture, epitomized the vulnerability of wildlife in the wild.
5. Even in captivity, the lioness retained a preyful gaze, instinctively scanning her surroundings for potential threats.
