

PUTRIFACTED

Meaning: Putrefacted refers to the state of having undergone decomposition or decay, resulting in a foul odor and deterioration, typically of organic matter.

1. The putrefacted remains of the once vibrant animal lay hidden beneath the thick underbrush.
2. After weeks without refrigeration, the meat had putrefacted, releasing a foul odor that filled the kitchen.
3. Scientists studied the putrefacted matter, hoping to understand the decomposition process better.
4. The smell of putrefacted vegetables wafted through the air at the abandoned farm.
5. He quickly buried the putrefacted food scraps to prevent attracting pests to the garden.
