

RAINBOW

Meaning: A rainbow is a multicolored arc that appears in the sky, formed by the refraction, dispersion, and reflection of sunlight in water droplets, typically after rain.

1. The vibrant rainbow arched gracefully across the sky after the rain stopped.
2. Children squealed with delight as they spotted a rainbow emerging from the storm clouds.
3. Legends say that a pot of gold awaits at the end of every rainbow.
4. After the downpour, the colors of the rainbow seemed to brighten the entire landscape.
5. Photographers flocked to the park to capture the stunning rainbow that formed over the lake.
