

READABILITY

Meaning: Readability refers to the ease with which a written text can be understood, often determined by factors such as sentence structure, vocabulary, and overall clarity.

1. The readability of the article significantly improved after the author revised the complex sentences.
2. Teachers often assess the readability of textbooks to ensure they are suitable for their students' grade levels.
3. Using clear headings and bullet points can enhance the readability of your presentations.
4. The readability of the website was a key factor in retaining visitors and reducing bounce rates.
5. In technical writing, achieving high readability is essential to convey information effectively to a broad audience.
