

REFERENDUM

Meaning: Referendum: a direct vote in which an entire electorate is invited to vote on a particular proposal or issue, often related to constitutional amendments or significant policy changes.

1. The government decided to hold a referendum to gauge public opinion on the new constitutional amendments.
2. In an unprecedented move, the citizens voted overwhelmingly in favor of the referendum, signaling a desire for change.
3. Many political analysts believe that the outcome of the referendum could reshape the nation's future.
4. As the results of the referendum were announced, celebrations erupted in the streets of the capital.
5. The controversial referendum sparked heated debates among various interest groups and political parties.
