

REFLECTION

Meaning: Reflection is the return of light or sound waves from a surface, or the careful consideration or thought about something.

1. The calm surface of the lake offered a perfect reflection of the surrounding mountains.
2. After much reflection, she decided to pursue her passion for art rather than follow a conventional career.
3. His reflection in the mirror reminded him of the struggles he had overcome in the past year.
4. The teacher encouraged students to engage in self-reflection to better understand their learning styles.
5. In the stillness of the night, the stars created a beautiful reflection on the water's surface.
