

REFLEXIVITY

Meaning: Reflexivity refers to the quality of being reflexive, particularly in decision-making processes where quick responses and the interrelation of actions and consequences are emphasized.

1. Reflexivity in decision-making often leads to quicker responses in crisis situations.
2. The concept of reflexivity challenges traditional notions of cause and effect in social sciences.
3. Understanding reflexivity can deepen our awareness of how our actions influence our surroundings.
4. In the realm of philosophy, reflexivity invites us to examine our thoughts and beliefs critically.
5. The artist's work exemplifies reflexivity, as it reflects on the interaction between viewer and artwork.
