

REMITTER

Meaning: Remitter: a person or entity that sends a payment or funds to another party, typically in a financial transaction.

1. The remitter must ensure that all necessary documentation is submitted with the payment.
2. In international transactions, the remitter's details are often required for tracking purposes.
3. The bank notified the remitter that their transfer had been successfully processed.
4. As a remitter, it is important to understand the fees associated with sending money abroad.
5. The company received a notification from the remitter confirming their intention to send funds.
