

REMITTOR

Meaning: Remitter: a person or entity that sends money or funds to another party, typically in the context of a financial transaction.

1. The remitter carefully filled out the transfer form to ensure the funds reached their intended destination.
2. As the remitter, she was responsible for providing accurate information to avoid any delays in the transaction.
3. The bank requires identification from the remitter to comply with international money laundering regulations.
4. After the payment was processed, the remitter received a confirmation email detailing the transaction.
5. He acted as the remitter in the wire transfer, making sure all fees were accounted for before sending the money.
