

# REPTANT

*Meaning: Reptant refers to an animal that moves by crawling or sliding, typically used to describe creatures like snakes or lizards.*

1. The reptant creature slithered silently through the underbrush, its scales glistening in the dappled sunlight.
2. As I walked through the garden, I spotted a reptant lizard basking on a warm rock, perfectly still and camouflaged.
3. The biologist explained that the reptant behavior of certain snakes allows them to navigate their environment effectively.
4. In ancient texts, the serpentine figure often represents wisdom, embodying the reptant nature of its movement and stealth.
5. She marveled at the reptant form of the vine as it wound its way around the trellis, seeking sunlight and space to grow.
