

RETROGRADATION

Meaning: Retrogradation is the process by which a substance, such as starch, undergoes a change in structure that can affect its properties, or the apparent backward motion of a celestial body against the background of stars.

1. The scientist proposed that the retrogradation of starch could enhance the texture of gluten-free products.
2. In astronomy, retrogradation refers to the apparent backward movement of a planet against the backdrop of stars.
3. Psychologists have noted a phenomenon of emotional retrogradation during periods of significant stress.
4. During the retrogradation phase of the moon, some gardeners believe it is a time for reflection and planning rather than planting.
5. The chef's innovative use of retrogradation techniques transformed the traditional recipe into a modern culinary experience.
