

REVOLUTE

Meaning: Revolute refers to a shape or structure that is curled or rolled inward, often used to describe leaves or forms that create a sense of movement.

1. The leaves of the plant were revolute, curling inward to protect themselves from harsh sunlight.
2. In the sculpture, the artist used revolute forms to create a sense of movement and fluidity.
3. The revolute edges of the paper made it easy to fold and manipulate for the intricate origami design.
4. During the presentation, the scientist explained how revolute structures can enhance the stability of certain frameworks.
5. In botany, a revolute leaf margin can often indicate a plant's adaptation to its environment.
